6:30pm**

Healthy Youth USA
Enrichment Center
5676 Roberts Drive
Dunwoody, GA 30338

WHO WE ARE

The Healthy Youth USA Foundation is dedicated to enhancing the lives of youth and furthering positive youth development through mentorship, arts initiatives and recreational enrichment. We additionally educate families, communities and organizations on the benefits on out of school time programs to children and communities, and encourage collaboration among community partners to enhance program development.

WHAT WE DO

We provide an affordable, high quality and safe after school program, The After School Club, to over 150 elementary age children everyday. We program math enrichment services, Karate, Dance enrichment and a full day Summer Camp program that serves 75 children daily for the entire summer.

WHY WE CARE

317,324 elementary age kids are on their own during the after school hours in Georgia

Without our programs, elementary age children will be left to stay home alone during the most critical time of out of school time. This is primarily due to their families not being able to afford quality care. All of our programs are served during out of school time as we strive to make America Healthier One youth at a time through health education and recreational initiatives during program hours.

WHY SHOULD YOU CONSIDER THIS OPPORTUNITY

This opportunity should be considered due to the visibility within our community! Our community represents working parents and families who seek out business and relationships with caring organizations who are willing to support their children. Becoming apart of our event will let our families and supporters know that you care and are working to help keep quality after school and summer camp programs in their community.. Your company can benefit from maximum exposure of your products and services while simultaneously raising money and awareness for the Healthy Youth USA Foundation.

Corporate Sponsorship allows your brand to connect with the overall goals of our program.

- Make a yearlong caring commitment to each child's physical and mental development through positive mentorship.
- Educate participating children on the importance of living a healthier lifestyle, ultimately reducing childhood obesity rates.
- Build confidence and character through performing arts and coach administered physical activities on a daily basis.
- Increasing child recreation time during out of school hours to make up for physical education cuts in public schools.
- Provide family enrichment through coaching, motivation, and education.
- Provide affordable opportunities to bridge the gap between school education and the role family relationships can have in improving child development outcomes.
- This event raises awareness for the need for After School Care and Quality summer solutions for children with working parents while raising funds to help us carry out our mission. We sincerely hope you consider this request.
